“How can there be too many children? That’s like saying there are too many flowers.”
Mother Teresa

This is somewhat of an inappropriate thought for us as we enter into springtime and another phase of our work at Birth Choice of the Desert. The abortionists continue to spread their wicked lies about abortions, but we will not be kept from saving as many of God’s babies as we can. To our donors and friends, the Board of Directors Thank You for your continuing support of our mission to assist pregnant girls and women in crisis and to encourage them to carry their babies to a full term birth. And, a special Thank You to the anonymous donor who so graciously donated the $2,000 gift for our Heritage House Parenting Program.

In the past 3 months since our Christmas newsletter to you, we have seen more than 24 new mothers come into our center for pregnancy tests, counseling, prenatal and parenting classes and other comfort and support that we can offer to them. Of the abortion-minded mothers in this group, there were 3 confirmed “saves” of God’s babies from death!

Just last week, we had a crying mother in her mid-40’s (we will call her Mary) walk in to our La Quinta center in tears. She related to our newest staff member, Idalia, that she was so upset because her husband, who is in his late 40’s, told her that she must get an abortion because they are “too old to have a baby now.” Mary told Idalia she didn’t know what to do. Idalia, who had been a part of our staff for only 3 weeks, was a former client of Birth Choice of the Desert 19 years ago. She credits the work of our organization back then with changing her mind from abortion to LIFE! So, when she was now confronted with this most important work of comforting, listening to, and counseling this distraught client, she did what she feels she was inspired to do by God—she related to our client her own story in a way that communicated to a sobbing Mary the value of the human life she was carrying in her womb. She told her of her own beautiful daughter now 19 years old. And, how by the grace of God, she decided against an abortion, even after being told by others that because of her young age, it was her only option. She was also able to discuss with Mary the truth behind the horrors of the abortion process. Mary had no idea what was really behind that word, abortion, she had heard so much about. Mary continued to weep throughout her time with us, but as she left our center after a long counseling session with Idalia, her tears were tears of joy as she proclaimed “I will not have an abortion!” She said she would keep her baby as her choice for LIFE! God is good! This is just one of the many stories we have of babies being saved in our center which is supported by your support and prayers. Please continue to keep us in your prayers and in your thoughts as you enjoy Spring, the season of new Life. We also hope you continue to support us through your monetary and in-kind donations. Below and on page 2 we have included articles by new staff members and photos of our recent activities. Also on the back page is a tender handwritten expression of thank you by one of our clients, with a photo of her beautiful baby, Josefina Flor. Below on the left we have included a photo of our group when we participated in the January 17th OneLife4A walk for life. On the right is a photo of some staff and volunteers receiving a donation form the students of Sacred Heart School in Palm Desert. In the middle are photos representing our partnership with the My Saint My Hero company for an online fundraising effort, which we hope you will support. Please go online to mysaintmyhero.com and view the beautiful jewelry and gift items that they have available. When you order online, please indicate this code: BCD130. It is only with the use of this code that Birth Choice of the Desert will receive 20% of your total purchase. All items are HANDMADE in Medjugorje of the finest materials. And, please remember to visit us at www.desertbirthchoice.org where you can donate safely through Pay Pal. God bless you and keep you safe and healthy through this Spring season.

John Jimenez  Chairman / Attorney

Special Donation Requests: We want to join the La Quinta ($185) and Indian Wells ($125) Chambers of Commerce. Can you please help us with these fees?
Hello my name is Idalia Uribe. I have been married to my high school sweetheart for sixteen years. We have four beautiful daughters and two precious granddaughters. I first heard about Birth Choice 19 years ago when I found myself pregnant and having to deal with the decision of whether I would keep my baby or not. I thank God every day for the Birth Choice activist at the abortion clinic that day. I don’t remember his name, I don’t remember his face…all I remember are the soft, gentle words he spoke to me that day, “Don’t do it, there are other options” I was so broken and confused, it was all I needed. Those words changed my life forever. He drove me from the abortion clinic to the Birth Choice office in Indio. I remember feeling scared because I would have to raise this second baby alone. The last thing I wanted was to disappoint my parents, again. But deep down inside I knew abortion was wrong and it wasn’t my baby’s fault I had put myself in this situation. My daughter was born August 31, 1996. I smile when I think about her because she is quite the character and every time I look at her and see her laugh and talk I think about how she almost didn’t get a chance. I can’t picture life without her. It was such a joy to see her grow up. She was always so loveable and so smart in school. An honor roll student in high school, and she graduated at the top of her class. Children are blessings and even when we don’t think that there’s a way out…God always makes a way. You just got to trust Him! Birth Choice is a vital and necessary part of our community. I am extremely excited and honored to be able to help young mothers make the right choice and help those who can’t find a way out, who have no hope and feel abortion is their only escape. Idalia

Hello, my name is Gianina Millan. I am new to the Birth Choice of the Desert family, and I am very excited to serve this center. Before becoming a part of BCD, I was hesitant to take such a challenge to counsel women who were considering an abortion. But after studying, training and watching DVD’S on how abortion is the ending of an innocent LIFE, I was encouraged to share my knowledge on abortions. I am glad I decided to give it a try. It is very rewarding helping the women of our community. Gianina

On December 18th of 2014 we stood on the sidewalk by our school, La Quinta High School, to pass out flyers to our peers. We did this with a hope of letting everyone know that Birth Choice of the Desert is here and ready to help. Passing out flyers to everyone that passed by and saying “Take it, read it, and if you don’t need it pass it on to someone who might,” was a very interesting experience. You would think that most people would see it and not even care about it, but we did not see one flyer thrown on the ground that day, and as they left it seemed to us like they were actually reading the flyer. The flyer clearly states who we are, what we do and how we do it. It is beautifully designed with our school colors to let the student body know we are directly addressing them and are here for them. The outcome to this project has not been seen yet, as no one has come to the Center by seeing our flyers. But, we are very satisfied with knowing that at least if someone needed our help it would be known that the loving staff at Birth Choice is here to help. Hannah, Annyssa, Lesley

*Before man are life and death, whichever he chooses shall be given him*  
Sirach 15:17

The young woman desperately searching the internet for help with her unexpected pregnancy is presented with many choices. Her google search under “abortion” “pregnancy help” will list many options. Near the very top of that list, on the first page, she will see "Birth Choice of the Desert". One click and she is there. At her fingertips are vital information, directions to our office and a phone number to call or text 24/7. At this point her choices are obscured by fear. The calm, loving voice or text response reaches her at this darkest point of crisis. Our compassionate volunteer provides thoughtful clarity. Alternatives are examined carefully. Resources are offered to assist with parenting or adoption. Most importantly the young mother knows that she is not alone. Birth Choice is the “voice of love” so that hers can be a “choice for life”. Thank you for your continued support of our internet presence.
